The Wood-Gas Controversy. A RATHER sharp but distant firing is carried on by some persons interested in Wood-Gas Patents; and we perceive that the wood-cas Patents; and we perceive that the smoke of their canaon has somewhat obscured their vision. Dr. C. G. Page, as the attorney for W. P. McConnell, having presented his claims through our columns, L. R. Breisach, of this city, has presented those of Pettenkofer & Ruland, ot Bavaria—he being their assignee—through the columns of the Daily Times of the 3d instant. He states that the first potent for the Bavarian invention was issued on February 24, 1851, an authen ticated copy of which has been filed in our Paten Office; also, that the claims of his assignors were Office; also, that the claims of his assignors were filed in the office, to protect their rights, more than a year ago. As no patent can be obtained for making or using Wood-Gas, the disputed point relates to the apparatus, which embraces point relates to the apparatus, which embraces the reheating of the gas—passing it over a red-hot surface in its way to the cooler—after it is generated; this is clearly stated in Dr. Page's letter, on page 50. Now, as McConnell claims to have invented the apparatus for reheating Wood-Gas, as far back as 1849—two years previous to the granting of the Bavarian patent—and as he ob-tained a patent for the same, on the 26th day of September last, although contested by Pettenko fer & Ruland, we cannot well conceive who L. R. Breisach wants to frighten, by declaring, through the columns of the Times, that he will prosecute the violators of the Bavarian invention. He gives this notice to all who take an interest in the intro-duction of this invention, but, in doing so, he forgot to present any fact upon which the public can rely, to show what patent rights he possesses. When he again writes to inform the public that he has certain patent rights, and will prosecute these who infringe them, we hope he will be so good as to state what these rights are, so that the public nay know what he means .- Scientific American.

PROSPECTUS OF THE WORTH CAROLINA STATESMAN.

THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the public

Invited by many leading persons of the Stat Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enterprise the property of the state of th sition, as well as for others, who choose to enter sition, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made as profession at once dignified and have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patron age, without interfering with the claims or right of any now presecuting the same great work Although mainly deveted to the discussion o

Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which sur commerce goes, shall be fully and accurately reported; nerwill the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall always command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina.

The general objects of the proposed paper being The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be au

to state the particular views which are to be sus-tained by it as a political journal.

Ist. Our purpose being to publish a paper purely de-mocratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense an organization which originates in the popular will, expressed by the people in their primary semblies, and which has been so successfully troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decision and, being all brought into action, express the will imperatively; thus, by open and fair dealing commanding respect and obedience; an organiza-tion of the people, and not of intriguers; restoring power to those who, by sufferance, have telerated

its temporary usurpation.
2d. The democratic party shall always find in us advocates of their right to select their standar bearers, and to command acquiescence in decision made by conventions fairly elected in their primar made by conventions tarry elected in their primary meetings. Standing upon the good sld State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance r any other measure inconsistent with the right of the States.

3d. Believing that the platform adopted by the ate Baltimore convention contains the democratic creed, they expect cordially to sustain the prese administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy 4th. They will advocate all such measures of in ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being to

uestion of the most absorbing interest, we b unjust and unequal legislation of Congress, in re-lation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of eve it should be at once met and settled. The propriating the proceeds of their sales to the parment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain The power "to dispose of the public lands being explicitly declared in the Constitution, the exer explicitly declared in the Constitution, the exer-cise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patri-bitic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and demo-crats, should protest, and demand North Caro-

lina's share of the public domain."

6th. Approving of the sentiments of the inaugu ral of the President, we shall oppose the acquisi-tion of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national

DR. MORSE'S INVIGORATING CORDIAL,
A Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse' Invigorating Elixir or Cordial.

T first the properties attributed to Profes A Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths an nounced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate funcwhich make up the wonderful machine caned man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicat ing that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable recoand permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the rest of traditions. the reach of medicine. Let not even these de spair. The Elixir deals with disease as it errats

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sick ness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental once braced, revivined, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be

INVIGORATING CORDIAL,

PURELY Vegetable is its composition. Intelliperation invaluable Cordial is extracted from Herba and Roots, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Homorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects, or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a ronic medicine is required, it will be found equal if not superior to any compound ever used.

To Females.—Henry's invigorating Cordial is one of the most invaluable medicines in the man complaints to which females are subject. It as sists nature to brace the whole system, check excesses, and creates renewed health and happiness Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial.
